

Business Requirements Document — Organizations

Platform: Zebu Helpdesk — Staff Portal (Flutter, Android/iOS) **Module:** Organizations **Document Version:** 1.0 (Initial Edition)
Date: August 2026 **Status:** In Progress (case-by-case) **Classification:** Internal Use Only

Document Control

Field	Value
Document Title	Organizations — Business Requirements Document
Module Scope	The Organizations surfaces of the Staff Portal: the Organizations list (search, pagination, create), and the Organization detail screen (header with organization attributes and flags, and the Members / Tickets / Notes tabs, plus edit and delete). This document specifies functional behaviour only — visual styling (colours, themes, animation) is out of scope.
Audience	Quality Assurance, Product Management, Engineering
Source Truth	Flutter source at <code>lib/features/organizations/orgs_list_screen.dart</code> , <code>lib/features/organizations/org_detail_screen.dart</code> , <code>lib/models/organization.dart</code>

6. Functional Requirements

6.1 OR-001 — Organizations list

Field	Value
Description	The Organizations list shows every organization, searchable and paginated, each row summarising its user count and domain.
Acceptance Criteria	- The app bar title reads Organizations with the total count shown below it as "N total" - A search box with the placeholder Search organizations narrows the list; the search applies on submit (not on every keystroke), and clearing it restores the full list - The list is paginated (fetches further pages as the user scrolls) - Each row shows the organization name and a subtitle of "{N} users", or "{N} users · {domain}" when the organization has a domain - Tapping a row opens that organization's detail screen (OR-003) - When there are no organizations (or none match the search), an empty state reading No organizations with the hint Try a different search. is shown - A floating action button opens the create-organization sheet (OR-002)
Priority	High

6.2 OR-002 — Create organization

Field	Value
Description	A sheet creates a new organization with a required name and an optional domain.

Field	Value
Acceptance Criteria	- The sheet is titled New organization and shows a Name field (auto-focused) and a Domain (optional) field with placeholder example.com - The Create organization button submits; while saving it shows a busy indicator - On success the sheet closes, a toast reads Organization created, and the list refreshes - On an API error with field errors, each is shown inline under its field (name, domain); a general error is shown below the fields - The domain is only sent when non-empty
Priority	Medium

6.3 OR-003 — Organization detail: load, header, and states

Field	Value
Description	Opening an organization loads its record and shows a header of its attributes and flags above the tabs.
Acceptance Criteria	- The app bar shows the organization name (or Organization until loaded) and an overflow menu with Edit and Delete (OR-008) - While loading, a loading view is shown; on failure an error view with retry is shown - The header shows the organization name and, for each present value, a labelled row for Domain, Manager, Sharing, and Members (count); rows with no value are omitted - Flag chips are shown for the organization's enabled flags: Collab all, Collab primary, and Auto-assign (only those that are enabled) - When the organization has custom fields, each is shown as a labelled key/value row below a divider
Priority	High

6.4 OR-004 — Organization detail tabs

Field	Value
Description	The detail body is organised into three tabs.
Acceptance Criteria	- Three tabs are shown in this order: Members, Tickets, Notes, selectable by tap or swipe - Each tab loads its own content (OR-005, OR-006, OR-007)
Priority	Medium

6.5 OR-005 — Members tab

Field	Value
Description	The Members tab lists the organization's users, opens a user, and lets an agent remove a member by swiping.
Acceptance Criteria	- The tab shows a paginated list of member users, each row showing the user's name, email, and avatar - Tapping a member opens that user's detail screen - Swiping a member row from right to left removes them from the organization; on failure an error toast is shown - An empty organization shows No members
Priority	High

6.6 OR-006 — Tickets tab

Field	Value
Description	The Tickets tab lists the organization's tickets.
Acceptance Criteria	- The tab shows a paginated list of the organization's tickets as ticket cards - Tapping a ticket opens that ticket's detail screen - An organization with no tickets shows No tickets
Priority	Medium

6.7 OR-007 — Notes tab

Field	Value
Description	The Notes tab lists internal staff notes on the organization and lets an agent add or delete notes.
Acceptance Criteria	- The tab loads and lists the organization's notes, each showing the note body and a line of "{staff name} · {relative time}"; a loading view and an error view with retry are shown as appropriate - An input at the bottom with placeholder Add a note... and a send button adds a note; an empty note is ignored; while adding, a busy indicator is shown - On a successful add, the input clears and the list reloads - Swiping a note row from right to left deletes it (reloading the list); failures show an error toast - An organization with no notes shows No notes
Priority	Medium

6.8 OR-008 — Edit / delete organization

Field	Value
Description	The overflow menu edits the organization's name and domain or deletes it.
Acceptance Criteria	- Edit opens a sheet titled Edit organization pre-filled with the current Name and Domain; Save changes submits (busy indicator while saving) - On a successful edit the sheet closes, a toast reads Organization updated, and the detail reloads - Edit field errors are shown inline under their field (name, domain); a general error is shown below - Delete shows a confirmation reading Delete organization? with the message This cannot be undone. and a destructive Delete confirm - On confirm, the organization is deleted, a toast reads Organization deleted, and the screen closes back to the list; on failure the server error is shown as a toast
Priority	Medium
