

Business Requirements Document — Profile

Platform: Zebu Helpdesk — Staff Portal (Flutter, Android/iOS) **Module:** Profile **Document Version:** 1.0 (Initial Edition) **Date:** August 2026 **Status:** In Progress (case-by-case) **Classification:** Internal Use Only

Document Control

Field	Value
Document Title	Profile — Business Requirements Document
Module Scope	The signed-in agent's own profile screen: the profile header, the availability toggle, and the edit-profile, change-password, and regenerate-avatar actions. This document specifies functional behaviour only — visual styling (colours, themes, animation) is out of scope.
Audience	Quality Assurance, Product Management, Engineering
Source Truth	Flutter source at <code>lib/features/profile/profile_screen.dart</code> , <code>lib/models/me.dart</code>

6. Functional Requirements

6.1 PR-001 — Profile screen and header

Field	Value
Description	The Profile screen loads the signed-in agent's profile and shows their identity plus the available actions.
Acceptance Criteria	- The app bar title reads Profile - On open the agent's profile is loaded; while loading a loading view is shown, and on failure an error view with retry - The header shows the agent's avatar, name, @username, email, and (when present) their department — shown as "{department} · {role}" when a role exists - A progress indicator is shown at the top while a profile action is in flight
Priority	High

6.2 PR-002 — Availability toggle

Field	Value
Description	A toggle sets whether the agent is available to accept new ticket assignments.
Acceptance Criteria	- An Available switch is shown with the subtitle Accept new ticket assignments, reflecting the agent's current availability - Toggling it updates availability on the server and refreshes the profile - The toggle is disabled while another profile action is in flight; on failure an error toast is shown
Priority	Medium

6.3 PR-003 — Edit profile

Field	Value
Description	An edit sheet updates the agent's contact details and signature.
Acceptance Criteria	- Edit profile opens a sheet titled Edit profile pre-filled with the current values - The sheet shows fields for First name, Last name, Email, Phone, Mobile, Timezone (hint e.g. Asia/Kolkata), and a multi-line Signature - Save submits (busy indicator while saving); on success the sheet closes, the profile refreshes, and a toast reads Profile updated - On an API error with field errors, each is shown inline under its field; a general error is shown at the top of the sheet
Priority	Medium

6.4 PR-004 — Change password

Field	Value
Description	A sheet changes the agent's password.
Acceptance Criteria	- Change password opens a sheet titled Change password with obscured Current password and New password fields - If either field is empty, an inline error Both fields are required is shown and no request is made - Update password submits (busy indicator while saving); on success the sheet closes and a toast reads Password changed - On an API error with field errors, they are shown inline (current/new password); a general error is shown at the top of the sheet
Priority	Medium

6.5 PR-005 — Regenerate avatar

Field	Value
Description	An action regenerates the agent's generated avatar.
Acceptance Criteria	- Regenerate avatar requests a new avatar and, on success, refreshes the profile and shows a toast Avatar regenerated - The action is disabled while another profile action is in flight; on failure an error toast is shown
Priority	Low

Document in progress — additional cases added after individual approval.
